Guidelines for Systematic and Smooth Implementation of Socio-Economic Development Activities in Cooperation with UN Agencies, International Organizations and NGOs/INGOs

1. Introduction:

UN agencies, international organizations, INGOs/NGOs and individual donors have been implementing socio-economic development projects in Union of Myanmar by signing MOUs or agreements either with the Ministry of National Planning and Economic Development MNPED on behalf of the government and or with the respective counterpart ministries.

While some UN agencies funded/implemented activities with systematically/comprehensively prepared project documents/MOUs between the government ministries and the agencies concerned are found to be effective some projects however are found to be less effective and much need to be improved.

Some INGOs/NGOs assisted projects which have limited scope in terms of space, time, and magnitude and implemented through MOUs with specific government departments to address only ad-hoc emergency needs are often found to be less effective and could even sometimes jeopardize other ongoing and normal development activities in the area.

This guideline is to address the above weaknesses and aim for more systematic and smooth implementation of socio-economic development activities in cooperation with UN agencies, International Organizations, INGOs/NGOs and individual donors.

2. Objectives:

The following objectives are set for the departments concerned in effective cooperation, collaboration and supervision on the projects being implemented by UN Agencies, INGOs, NGOs, International Organizations:

✓ To enhance and safeguard the national interest
✓ To prevent the infringement of the sovereignty of the State
✓ To cooperate without any string to the State
✓ To provide guidance to be on the right track, render necessary assistance as well as cooperate and coordinate with the view to contributing the socio-economic development of the Nation
